

SUBCHAPTER G—SURFACE COAL MINING AND RECLAMATION OPERATIONS PERMITS AND COAL EXPLORATION SYSTEMS UNDER REGULATORY PROGRAMS

PART 772—REQUIREMENTS FOR COAL EXPLORATION

Sec.

772.1 Scope and purpose.

772.10 Information collection.

772.11 Notice requirements for exploration removing 250 tons of coal or less.

772.12 Permit requirements for exploration that will remove more than 250 tons of coal or that will occur on lands designated as unsuitable for surface coal mining operations.

772.13 Coal exploration compliance duties.

772.14 Commercial use or sale.

772.15 Public availability of information.

AUTHORITY: 30 U.S.C. 1201 *et seq.* and 16 U.S.C. 470 *et seq.*

SOURCE: 48 FR 40634, Sept. 8, 1983, unless otherwise noted.

§ 772.1 Scope and purpose.

This part establishes the requirements and procedures applicable to coal exploration operations on all lands except for Federal lands subject to the requirements of 43 CFR parts 3480–3487.

[48 FR 40634, Sept. 8, 1983, as amended at 48 FR 44779, Sept. 30, 1983]

§ 772.10 Information collection.

(a) In accordance with 44 U.S.C. 3501 *et seq.*, the Office of Management and Budget (OMB) has approved the information collection and recordkeeping requirements of this part. The OMB clearance number is 1029–0112. OSM and State regulatory authorities use the information collected under this part to maintain knowledge of coal exploration activities, evaluate the need for an exploration permit, and ensure that exploration activities comply with the environmental protection, public participation, and reclamation requirements of parts 772 and 815 of this chapter and 30 U.S.C. 1262. Persons seeking to conduct coal exploration must respond to obtain a benefit.

(b) OSM estimates that the combined public reporting and recordkeeping burden for all respondents under this part will average 11 hours per notice or

application submitted, including time spent reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Specifically, OSM estimates that preparation of a notice of intent to explore under § 772.11 will require an average of 10 hours per notice, preparation and processing of an application for coal exploration under § 772.12 will require an average of 103 hours per application, compliance with § 772.14 will require an average of 18 hours per application, and record-keeping and information collection under § 772.15 will require an average of approximately 1 hour per response. Send comments regarding this burden estimate or any other aspect of these information collection requirements, including suggestions for reducing the burden, to the Office of Surface Mining Reclamation and Enforcement, Information Collection Clearance Officer, 1951 Constitution Avenue, N.W., Washington, DC 20240; and the Office of Management and Budget, Office of Information and Regulatory Affairs, Attention: Interior Desk Officer, 725 17th Street, N.W., Washington, DC 20503. Please refer to OMB Control Number 1029–0112 in any correspondence.

[64 FR 70837, Dec. 17, 1999]

§ 772.11 Notice requirements for exploration removing 250 tons of coal or less.

(a) Any person who intends to conduct coal exploration operations outside a permit area during which 250 tons or less of coal will be removed, shall, before conducting the exploration, file with the regulatory authority a written notice of intention to explore. Exploration which will take place on lands designated as unsuitable for surface coal mining operations under subchapter F of this chapter, shall be subject to the permitting requirements under § 772.12. Exploration conducted under a notice of intent

shall be subject to the requirements prescribed under § 772.13.

(b) The notice shall include—

(1) The name, address, and telephone number of the person seeking to explore;

(2) The name, address, and telephone number of the person's representative who will be present at, and responsible for, conducting the exploration activities;

(3) A narrative describing the proposed exploration area or a map at a scale of 1:24,000, or greater, showing the proposed area of exploration and the general location of drill holes and trenches, existing and proposed roads, occupied dwellings, topographic features, bodies of surface water, and pipelines;

(4) A statement of the period of intended exploration; and

(5) A description of the method of exploration to be used and the practices that will be followed to protect the environment and to reclaim the area from adverse impacts of the exploration activities in accordance with the applicable requirements of part 815 of this chapter.

[48 FR 40634, Sept. 8, 1983, as amended at 53 FR 52949, Dec. 29, 1988]

§ 772.12 Permit requirements for exploration that will remove more than 250 tons of coal or that will occur on lands designated as unsuitable for surface coal mining operations.

(a) *Exploration permit.* Any person who intends to conduct coal exploration outside a permit area during which more than 250 tons of coal will be removed or which will take place on lands designated as unsuitable for surface mining under subchapter F of this chapter, shall, before conducting the exploration, submit an application and obtain written approval from the regulatory authority in an exploration permit. Such exploration shall be subject to the requirements prescribed under §§ 772.13 and 772.14.

(b) *Application information.* Each application for an exploration permit shall contain, at a minimum, the following information:

(1) The name, address, and telephone number of the applicant.

(2) The name, address and telephone number of the applicant's representative who will be present at, and responsible for, conducting the exploration activities.

(3) A narrative describing the proposed exploration area.

(4) A narrative description of the methods and equipment to be used to conduct the exploration and reclamation.

(5) An estimated timetable for conducting and completing each phase of the exploration and reclamation.

(6) The estimated amount of coal to be removed and a description of the methods to be used to determine the amount.

(7) A statement of why extraction of more than 250 tons of coal is necessary for exploration.

(8) A description of—

(i) Cultural or historical resources listed on the National Register of Historic Places;

(ii) Cultural or historical resources known to be eligible for listing on the National Register of Historic Places; and

(iii) Known archeological resources located within the proposed exploration area.

(iv) Any other information which the regulatory authority may require regarding known or unknown historic or archeological resources.

(9) A description of any endangered or threatened species listed pursuant to the Endangered Species Act of 1973 (16 U.S.C. 1531 *et seq.*) identified within the proposed exploration area.

(10) A description of the measures to be used to comply with the applicable requirements of part 815 of this chapter.

(11) The name and address of the owner of record of the surface land and of the subsurface mineral estate of the area to be explored.

(12) A map or maps at a scale of 1:24,000, or larger, showing the areas of land to be disturbed by the proposed exploration and reclamation. The map shall specifically show existing roads, occupied dwellings, topographic and drainage features, bodies of surface
